

Rainbow Wall Putty

Rainbow Wall Putty is water based ready to use putty for surface preparation. It is non-flowable putty with excellent finish. It is fast drying and has good sanding properties. The resin used in the preparation of this putty also helps in preventing alkali and efflorescence in the wall. It helps in filling cracks and also obliterates the grey colour of plaster improving hiding power of finish paint while it also provides better adhesion to surface. The product is formulated to fill gaps, pores, dents and imperfections of wood, concrete and related surfaces. Compatible to water solvent based paints.

Rainbow Wall Putty is an environmental friendly product which is completely free from lead and mercury.

Specification:

Composition:	Based on water dilute-able Emulsion with carefully selected pigments & extender to help ease of application and sanding of surface.
Spreading Rate:	5-8 m ² /Kg/Coat (Depending on surface and nature of plaster)
Surface:	Applied on all cement plaster, asbestos and wood surfaces.

No of coats:	Best result are achieved when two coats are applied.
Thinner:	Ready to use, Water is used for cleaning utensils.
Dry Time:	1-2 hours (Depending on the climatic conditions).
Sanding Time:	2-3 Hours Minimum.
Colour:	White
Finish:	Matt
Packing:	1.25Kg, 5Kg and 20Kg

Application Guide

New Surface

Rainbow Wall Putty is ready for use however slight addition of water is recommended for excessive absorbent plasters. Sand down the plaster with emery paper preferably emery stone, apply one coat of Wall Primer followed by Rainbow Wall Putty. Two coats of putty is applied, with a interval of 2-3 hours between coats.

Old Surface

Remove dust, dirt and loose adhering or flaked paints by scarping with scraper (wall) or Emery Paper. Dust off and apply 1 coat of Wall Primer. Allow to dry properly followed by 1-2 coats of Rainbow Wall Putty. Prior to application of finish paint.

Note: The above Information is given in good faith, but without any warranty.
